I will try. Not sure of the R9 setup and if there is place nearby that I can make a call. If we are on their conference floor I should be able to especially early on.

Is there anything else you can think that you want/need?

Thanks Fran! Will you be able to call in for some of the meeting tomorrow?

Hi Bill...I worked with Dianna on Friday to get the updated GPRA/SCAP/FYR/FF charts. Dianna sent them out late on Friday so they should be in your inbox.

Also Dianna and I went over the Co Smelter SCAP 2 and made a few additional changes in coordination with Steve. Also in your in box.

I will have my RPM/Site assignment/team/other duties list to you shortly.

I checked with Steve and he was working on his thoughts for goals/visions.

I have the site assignment list ready to send out but thought we should announce Steve Dyment/Op. Liaison first. I have a draft for your review that I will forward that I worked with Steve D. on. (Actually he wrote it at my request after we discussed what it should contain. It's an announcement and a bit of a promo for optimization. I suggest we send this to a larger group and I am able to do it on your behalf if you don't have mail groups set up for Brownfields, enforcement, etc.)

Feel free to call...I will probably leave for the airport around 8:45/9. Flight is at 11:50 so will miss 1 pm meeting. But I can work on something in the hotel room once I arrive if you need something.

Fran

All,

Please take a look. We'll discuss on Monday.
